# ZEISS ABBE II OCULARS DON'T MISS IT THIS TIME...

## A classic has been reborn for uncompromising planetary observers Zeiss Abbe II Eyepieces

- Made in Germany by Carl Zeiss Jena exclusively for Baader Planetarium
- Essential focal lengths in an improved lens design: 16,10,6,4mm
- Ultra-expensive finest optical glass throughout
- Perfect color correction and sharpness to the edge
- Unsurpassed image brightness
- 43 degree apparent field of view – free of distortion
- Ultimate Carl Zeiss high efficiency multi coatings
- Virtual crosshair – for object centering and field size drift-measurements
- Two additional integral stray light baffles – for ultra high contrast
- Matched Carl Zeiss 2x Abbe Barlow lens (optional), doubles focal lengths to 8,5,3,2mm without any compromise in sharpness & resolution or redundancy
- Walnut storage case free with purchase of complete eyepiece set (limited qty)
